of the Michigan Administrative Code are amended as follows:

PART 5. TYPES OF PUBLIC WATER SUPPLIES

R 325.10502 Classification of public water supplies.

Rule 502. (1) For purposes of implementing the act, public water supplies are classified by the department into 3 types as follows:

(a) Type I: All community supplies are classified as type I public water supplies.

(b) Type II: All noncommunity supplies are classified as type II public water supplies.

(c) Type III: All water supplies which are not type I or type II public water supplies shall be classified as type III public water supplies.

(2) Type II public water supplies are further classified by the department as follows:

(a) Type IIa: Type IIa public water supplies are type II public water supplies with an average daily water production for the maximum month equal to or greater than 20,000 gallons per day.

(b) Type IIb: Type IIb public water supplies are type II public water supplies with an average daily water production for the maximum month of less than 20,000 gallons per day.

(3) When a ~~supplier of water~~ **public water supply** is unable to determine average daily water production, the department may use other criteria based on similar public water supplies to make a determination of classification for purposes of subrule (2) **of this rule**.

R 325.10503 Two or more waterworks systems under same ownership or operation.

Rule 503. **(1)** Two or more waterworks systems owned or operated by the same person at the same general location, not individually meeting the definition of a community supply or a noncommunity supply, but collectively meeting the definition of a community supply or a noncommunity supply, shall be considered by the department to be a single public water supply.

(2) A waterworks system meeting the definition of a community or noncommunity water supply and a waterworks system not meeting the definition of community or noncommunity water supply in the same general location collectively owned or operated by the same person may be considered by the department to be a single public water supply.

August 27, 2008

R 325.10504 General requirements of type I public water supplies.

Rule 504. ~~Suppliers of water of A~~ type I public water supplies **supply** shall meet the following general requirements and other specific requirements as prescribed by the act and these rules:
